

## Industrial Solar GmbH to install photovoltaic system for city council

Today, Industrial Solar GmbH received an order from the city council Frankenthal in the Platinat region for a 25kW photovoltaic system. The total sum of the projects amounts to approx. € 38,000.

The city council Frankenthal placed an order with Industrial Solar GmbH, a 100% subsidiary of Clean Industry Solutions Holding Europe AB, for a photovoltaic system. The low-voltage system with an installed capacity of 25 kW is designed for self-consumption with a surplus feed-in. The company's engineering team is going to expand the lightning protection of the plant and integrate the new infrastructure into the existing network according to valid standards and guidelines.

The construction will begin in mid-May 2021 and the contract volume is € 38,000. CEO Christian Zahler stated: "I'm glad to see that the adaption of our business model to the conditions caused by the pandemic works out. With every order of such a smaller PV system we improve our qualification for orders of larger systems in the range of several 100 kW, which are actually our target."

This disclosure contains information that Clean Industry Solutions Holding Europe is obliged to make public pursuant to the EU Market Abuse Regulation (EU nr 596/2014). The information was submitted for publication, through the agency of the contact person, on April 15, 2021.
